

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE

With the completion of the original minutes of the Ohio Company of Associates in this volume a word concerning the index to Volumes One and Two of this series of *Collections*, herein printed, is in order.

It has been the aim of the editor to make this index a complete key to the story of the founding of the first settlement of Ohio under the Constitution. Needless duplication has been avoided where possible; for instance, men appointed on committees are mentioned only in the first instance; for their activities and services as committeemen it will be necessary only to look for the entries of the respective committees under the general title of "Committees of the Ohio Company."

Errors will doubtless be found relative to persons whom the records describe variously on different occasions as "Mr.," "Esquire," "Judge," "Major," etc., or by last name only, leaving it to the omniscience of the reader to decide exactly who is meant.

It is believed that this index will prove a new history of early Ohio and Marietta; that herein will be found the real story of the building up of

the most interesting New England settlement in the West; that the relative importance of the various builders can be estimated as never before by this minute analysis of the activities of each.

The editor is indebted for assistance on the early portions of the index to Miss Louise Baume, B.A.

At the conclusion of this volume will be found a List of Stockholders in the Ohio Company. The first publication of this list alphabetically gives the reader a clear idea of the degree to which New England entered into the Ohio project; the names include many famous in American annals, as Adams, Angel, Atwater, Bowdoin, Bradford, Burr, Carrington, Catlin, Choat, Cleveland (Moses), Cobb, Converse, Cutler, Dexter, Everett, Gridley, Hamilton (Alexander), Hillegas, Jackson, Livingston (Walter), Putnam, Parsons, Pike, Sabin, Schuyler, Tillinghast, Ticknor, Trumbull (Jonathan), Tupper, Varnum, Winsor, Wadsworth, etc.

For the generous praise bestowed by scholars and historical publications on the initial volume of these *Collections*, the Marietta Historical Commission, through the editor, expresses its appreciation. The great work to be done in opening up the real sources of Ohio's history remains a constant challenge to the historical workers of the State. Despite the distractions of these momentous days the Commission will hold, for

the time being at least, to the purpose for which it was created. No method of increasing patriotism and making more plain the services and devotion of "the Fathers" should be ignored in days of national crisis.

At Marietta REPORT of RUFUS PUTNAM to the BOARD of DIRECTORS at MARIETTA in behalf of himself and MANASSAH CUTLER.—

GENTLEMEN. —

By the proceedings of D^r Cutler & myself from the 12th of August 1789 to the 21st of April 1790. You will perceive the measures We took to ascertain the Amount of Certificates, Moneys and Military land Warrants which the Several Agents

had a just claim to be Credited with, And also the reason why we did not apply to Congress for a Deed of the Lands purchased as had been intended—You will find by Our proceedings of the 21st of April 149 Shares are Declared forfeited on account of nonpayment & the same assumed to be Disposed of for the Benefit of the Company.—

[General Putnam's reasons for not applying for a deed]

By the Treasurers Books we found that several assumptions had been made—Also Col. Platt relinquished 9 Shares of Sargents Agency to the Directors; the whole of these will be forfeited Rights being taken into Consideration and the proper deductions made; the Number to be accounted for in each Agency are as follows Viz.

About the 15th of April we received a proposal or application from W^m Duer, Royal Flint & Andrew Craigie, Trustees to the Proprietors of the Scioto Lands to purchase from us the amount of all the forfeited Shares, the same to be located in One Tract at the Southerly end of the Tract Secured by Contract to the Directors of the Ohio Company, and to come as far up the Ohio as the mouth of the Great Kanahawa River—After taking the proposition into Consideration and ascertaining the Number of Shares which in Our Opinion it would at this time be proper to declare forfeited, and sell agreeably to our instructions: we concluded a bargain with them on terms Expressed in the Contract Covenants executed between Us on the 23^d of April, and which in Substance is as follows. Viz. In Consideration of 1488 Dollars in Specie, the One half to be paid in 60 Days the Other in Ninety Days, with the sum of 8880 Dollars of Indents of Interest to be paid in Six Months (for which Sum Notes are given and Lodged with the Treasurer) and to pay the Same price for the Lands which the Ohio Company Shall finally be Obligated to pay to Congress, which payment is to be made within One month after the Directors shall Make the Demand in writing, together with an Assignment of the Scioto proprietors right of preemption to all the Lands lying North of Our present purchase to which they had such Claims—We on Our Part in behalf of the Directors of the Ohio Company Covenant to sell the Said Trustees 148 House lots 148 lots of 8 Acres each, 148 lots of 3 Acres each and a 148 lots of 160

Acres each, all and every of the said lots to be the same which have been Drawn against the Names of the persons who have failed in payment & therefore forfeited their right to them, and also one other tract, of land Containing 196544 Acres Comprehending the following Townships and the fractional parts of Townships Viz. N^o 1, 2, 3 in the 14th Range, N^o 1, 2, 3, 4, 5 in the 15th Range, N^o 1, 2, 3 in the 16th Range N^o 1, 2, 3, 4 in the 17th Range and so much of the 4th Township in the 16th Range and the 5th Township in the 1st Range, and on the South part of the Same as shall make up the Quantity aforesaid making all the reservations of Public Lots which are made to the Directors of the Ohio Company and granting the Same right of entry:—But no Deed to be given till the purchase money or public Securities are repaid.—

N. B. 148 Shares only are sold to Duer & associates M^r Alexander having previously engaged to take One—and Col. Platt did not relinquish those nine Shares in Sargents Agency till after the Bargain with Duer was executed.—

On the 23^d of April as will appear by the proceedings of that Day D^r Cutler and myself passed an Order to Enable Col^l Platt to supply the Treasury with Cash by the means and for the reasons therein expressed.—On this beg leave to Observe that Colonel Platt Stated that he was considerably in advance already, that Several Orders of a Considerable Amount had been presented for payment, which although by the face of them and immediate Demand of payment or protest might not be made, Yet he had Satisfied the parties by

accepting them, to pay at a future Day, Which he was induced to do, on an expectation that provisions would be made to enable him to fulfil his promise, & reimburse himself for past advances. — That Orders were daily presented requiring payment at a future Day — Yet these people were pressing, and the Credit of the Company Sinking — these Circumstances, together with the Current expense of the Company that ought to be provided for, induced us to adopt the measure which if it was not Strictly within our power yet I conceive the Necessity and Utility of the measure will induce you to approve, and the Agents if necessary to ratify the proceedings. —

[Reasons

Duer ex-
plained]

As to making application to Congress on the other matters Committed to us, it was Judged to be improper, at present, and finding there was no probability that Congress would compleat their funding System, or their system for Disposing of the Western Territory within a Short Time, and perhaps not during their present session — it was agree'd that Dr Cutler Should return home, and that I should proceed to this place — The Army Warrants I did not take Out and Drew but 2100 Dollars of the 3000 that was Ordered. —

The thoughts of Gen' Putnam on an Ultimate Division as mentioned on the 28th Instant, were again bro^d forward—And passed into a Resolution of the Company—Viz.—

System for
an Ultimate
Division

WHEREAS. by the Report of General Putnam to the Board of Directors relative to his and D^r Cutlers proceedings as Directors, acting under the Order of that Board passed the 16th May 1789 it appears that one hundred and forty nine Shares in the Company have been declared forfeited on account of Nonpayment, and nine others relinquished—that the amount of One hundred and forty Eight Shares have been Sold to W^m Duer & others; which has so changed the affairs of the Company as to render several Resolves, heretofore passed relative to the location and granting Donation Lands, as well as Dividing lands to proprietors in Several respects incompatible to the present circumstances & interest of the Company—Therefore—

Resolved. that a system be adopted for granting Donation Lands, for the purpose of promoting the General Interest of the Company, & Dividing Lands to proprietors agreeably to the following

[System for Articles & Resolutions, Any Resolution heretofore passed to the contrary notwithstanding.—
granting Donation lands]

Article 1st—

Sect. 1st

Resolved. that the lands taken up and Settled by proprietors as Donation Lands in the Eighth, Ninth, & Tenth Ranges, on the Ohio and Muskingum Rivers, and the lands associated for at Long Bottom and Ambersons Bottom *so called* shall be considered as a Division to those Proprietors, who have Settled & associated for and given Bonds to Settle the Same, and Shall not be considered as including any part of the hundred Acres on a Share, which by any Resolution of the Agents and proprietors in December 1788 became liable to be appropriated for the Settlement and protection of the Inhabitants that should Settle on the Companys lands.—

Section 2^d.¹⁸

Afterwards
Expunged

That where any Person or Persons have in the afors^d Settlements taken up a lot or lots in the Character of a proprietor whose Share or Shares shall be found among those that have been declared forfeited, or that Shall hereafter be found to be forfeited on account of Nonpayment— Such lot or lots Shall revert to the Company, and the Grant made of them by the Donation Committee & permit given to enter and occupy the Same, is hereby declared Null and Void, and such lots Shall be given to the first real proprietor that Shall apply.

¹⁸ Marginal note indicates that this section was afterward expunged.

Provided always, that Such Occupant Shall have till the first of March 1791 to procure a title from any Proprietors in the Company who shall not have received his quota of this Division elsewhere. —

Article Second.

Section 1st

Whereas on the Second of March last a report was made by the reconoitreing Committee, and accepted by the agents and proprietors whereby 57.622 Acres are appropriated and Set apart as Donation Lands, and it now appearing that a part of Said Lands are Sold to W^m Duer & Others, and also such appropriations appearing not so much for the general Interest of the Company as under former Circumstances it was judged to be— Therefore—

RESOLVED. that the appropriation of the lands described in said Report be and is hereby repealed, and is further Resolved that those lands as far down the Ohio as to include the 4th Township in the 14th Range be Divided to Proprietors, except Such parts thereof as the Agents and Proprietors may hereafter appropriate and Grant as Donation Lands for the encouragement for the erecting Mills and other Water Works.—

Article third.

Section 1st

Whereas the number of Proprietors already provided for as mentioned under the first Article amount to no more than [] Shares, and those under the Second Article will not probably exceed []

Shares, making in the whole [] Shares, and leaving to the proprietors of Shares still to be provided for, Therefore Resolved. that the survey of the Meanders of the Hockhocking River and its larger Branches, Shall be compleated so far as to Ascertain and Describe the Bottom lands lying on them (and also the unappropriated Bottoms on the Muskingum) within the present purchase in the Same manner as hath been done on the Ohio—That then there shall be delineated on a Plan, and appropriated as a part of the aforesaid Division of one hundred Acres, So many compleat Mile Squares of the best of those lands, as Shall in the Opinion of the Committee to be appointed for that purpose make the Remaining Shares due to the Proprietors, whether they fall on the Muskingum, or the Hockhocking Rivers equal in value to those of one hundred Acres located on the Ohio—

Section 2^d

The Committee who shall have the Charge of assigning the Lands for Division on the Hockhocking mentioned under the last section Shall previously to determining Such location Fix on the two Townships which the Directors by their Contract with Congress are obliged to Set apart for the Support of an University—They shall also lay out near the great Forks of the Hockhocking, or at the place called the Press on that River, or at the most convenient place communicating with the great Salt Spring of the Scioto, at either or all of them, as they Shall Judge best, a Sufficient quantity of land for and Suitable for

building a Village or Villages and which with the Lands already appropriated at the mouth of the Hockhocking River, Shall be Sufficient to give the Proprietors a House lot to every Share they hold in the funds of the Company, of the 90 feet by 180— With Suitable Common for Landing places, Streets, a place of Arms, and Squares for erecting Public Buildings— And if the Committee find any Mill Seats or Beds of Iron Ore, within the Mile Squares which otherwise might be proper to come into the aforesaid Division they Shall reserve them out of the Division lots and a sufficient quantity land about them for their accomodation, to be disposed of hereafter by the Agents and proprietors on Donation principles.

Article Fourth.

Section 1st

The lots of this Division being made as equal as possible, it can be no deviation from the Spirit of this Association, nor Just ground of Objection that they be divided to the Proprietors in a way that will enable those who are disposed to undertake an immediate Settlement to prosecute the business with Some degree of Security against the Common Enemy.— Therefore —

RESOLVED. That the Several Proprietors who have a Claim to lands in this Division may Associate themselves for Settling their remaining Rights or Shares in the same manner that they were authorised to do, when they were Considered in the light of Donation Lands, provided, they give Bonds to commence their Settlements within

One Year from this 30th Day of June 1790 & subject themselves to all the Duties and to make all the improvements, which those who settled on Donation principles are Subjected by the General System.—and provided that no proprietor or other Person Shall be permitted to take up Lands in this Division, in the name, or on the account of another, or absent proprietor without first producing legal powers therefor.—

Provided also, that the Lands appropriated on the Ohio shall be taken up in alternate Succession from Ambersons Bottom Downwards, and from the 3^d Township in the 14th Range Upwards without leaving any Chasms, and the Bottoms and Uplands Shall be taken in equal proportion to the ratio allowed in the Original Alotment of these Lands.—And the Lots on the Hockhocking, Shall be taken up in like Succession from the mouth of the River upwards including its Branches, Or from the head of that River downwards, with its Branches, and the Same Rule to be observed with respect to the Lands that may be appropriated on the Muskingum.—

Section 2^d

³² Hamilton's Assumption Bill, by which the Government established its credit by taking over the State debts, was incorporated in the Acts of Congress of Aug. 4, 10, and 12, 1790. For every hundred dollars subscribed, "payable in the debt," the subscriber could elect to have two-thirds funded at six per cent (redeemable at the pleasure of the Government) and receive one-third in western lands at the rate of twenty cents per acre, or could have the whole sum funded at four per cent with a bonus of \$15.80 payable in lands. — Hamilton's "First Report on Public Credit," William Macdonald, *Select Documents*, 55-56.

³³ The Company's settlement on the Muskingum River at "Big Bottom," a mile below Stockport, O., was savagely attacked by a party of Indian banditti on the evening of January 2, 1791. The colony, hastened into existence by the resolutions of the Agents and proprietors passed Nov. 1st (see *ante*, 57, 59) consisted of thirty-six young men. Proper methods and discipline for defence had been neglected. The assault was considered by the Ohio Company men as a reaction from Harmar's Campaign but we have no reason now to believe it was other than an isolated raid of irresponsible vagrants. In the minutes of Oct. 4 and Nov. 2, we have seen, guards and spies were appointed, proving that watchfulness was considered necessary to those in authority.

At a special meeting of the Agents & Proprietors 573 Shares being represented — January 5th 1791 — and continued by Adjournment from day to day to the 10th Instant, & the following Resolutions passed. — Viz — (inclusive)

[Big
Bottom
settlement
destroyed]

WHEREAS there is reason to believe that the Campaign made against the Shawonese and other Indian nations the last year is so far from humbling the Indians & inducing them to sue for Peace, that on the Contrary a general war with them will ensue: which has already broke out against the people Settled on the Ohio Companys lands, by the surprize of the Block House and breaking up the Settlement at the Big Bottom on the Evening of the 2^d Instant in which Disaster fourteen Persons were killed & three others Are missing — the Governor & Secretary being out of the Territory, the militia of Virginia and Pennsylvania cannot be called upon to our Aid — No relief in the nature of things can be expected from the General Government in time to give us immediate relief & protection; and from the present state of Fort Harmar very little can be expected for defending our Out Settlements.

Under the Circumstances we conceive all our Settlements in the utmost danger of being swallowed up, before any foreign Aid can be obtained, unless prevented by immediately drawing in some of our out Settlements, erecting better defences at Marietta & those outposts that shall be agreed on to remain by having all our military strength drawn to certain points and a particular System of defence established — Therefore —

RESOLVED.

That the inhabitants of all the out settlements be and they are hereby advised to remove all their Women & Children to the Town of Marietta as soon as possible: Where Houses must be provided for their reception, and as far as reasonable the expense paid by the Directors out of the Companys funds.—

That application be made to the Commanding Officer at Fort Harmar requesting him to give us such protection as the State of his command will admit—and also that He will please to represent our defenceless situation to the Minister at War & use such measures as he can with propriety to procure us the defence necessary for protecting our Settlements—

RESOLVED

That a Committee of three be appointed to address the court of General Sessions of the Peace for the County of Washington on our present Defenceless Situation & Report—that Joseph Gilman Dudley Woodbridge & Elijah Backus be the Committee.—The above Committee made the following report of an Address as aforesaid which was accepted and Ordered to be presented Viz.—

Committee
to address
the G.
Sessions —

To the COURT of GENERAL SESSIONS of the Peace for the County of WASHINGTON.—

We the Agents and Proprietors of the Ohio Company in behalf of ourselves and inhabitants living on our Lands, beg leave to address your honors on the subject of our present defenceless situation against the savages —

We conceive your honors to be a proper Board to receive our request and to present them through the medium of his Excellency the Governor of the Territory, now at Philadelphia to the President of the U. States

Address to
the Court of
G. G.
Sessions

Your honors have just seen the fatal Catastrophe of one of our most defensible Garrisons,

from the particular complexion of the affair have with us concluded it to be a convincing indication of a general Indian War. —

The inclosed resolutions of the Ohio Company contain a statement of the measures which we have thought it necessary to take for our immediate security: but from your knowledge of the State of our finances you must be sensible these measures can only be temporary ones. —

The most of our Settlers encumbered with families, many of which are numerous, and having been prevented for several years from getting a Subsistence by their labour have already exhausted their property & can now support themselves only by cultivating their Lands. —

In these circumstances they have within their reach of their own exertions no alternative — If they contract their Settlements and Garrison themselves for defence they must eventually Starve — If they do not they are massacred —

[Necessity
for
Government
Aid]

We have no resource, but in the humanity of the general Government; and we cannot but persuade ourselves that upon a proper representation made by your honors of our Situation, we shall receive that assistance which will enable us to live in quietness. —

We saw with gratitude which we could not express, the Public Attention which was paid to our defense during the last season — but we cannot now be silent when we find ourselves after an ineffectual Campaign exposed unprotected to the fury of an irritated enemy. — it is with pain we have heard the cruel insinuations of those who

have been disaffected to the Settlement of this Country—it is not possible that those men who have pursued into these woods that path to an humble competence which was pointed out to us by the Commander in Chief of the American Army should be doomed the Victims of a Jealous policy; to see the mangled bodies of their friends exposed a Spectacle to prevent emigration—

We are fully assured of the parental tenderness of the Government of the United States—It is this assurance which has induced us through Your honors interposition to ask their speedy assistance—

We do not presume to trouble your honors with any Arrangements which we may think necessary—nor to point out the expediency that those troops which may be sent for our protection should be regular Ones. We cheerfully rely on his Excellency the Governor's attachment to this Country and his perfect knowledge of its interests.—

We the subscribers a Committee appointed by the Agents & proprietors at their meeting on the 3^d Monday of February last to view the three Acre lots Leased to Thomas Lord esquire near Fort Harmar: to examine into the Petition & remonstrance of Captain Heart preferred at said meeting, also his request that the lands from Cecelia

Square down the Creek emptying into Muskingum should be ditched — Report that we conceive those three Acre lots leased to Esquire Lord are of real Utility to the Officers and Soldiers in the Garrison, & that those lots ought to be retained for that purpose so long as the Garrison remains there — We also Report that we have consulted with Esquire Lord on relinquishing his Claim to the Company, which he consents to do, on their paying him a reasonable compensation — which we estimate at sixty Dollars — which sum we recommend to have secured to him — Or on failure, it is our opinion that all the Streets adjoining said lots should immediately be laid Open — We are of opinion that for the preservation of health; it is expedient that a Ditch be immediately made from Cecelia Square to the Muskingum, and that the Persons improving the lots between Said Square and Muskingum (as soon as the waters will permit) Ditch their lands, and in case of failure that Capt Heart be considered as respects the time in which he was to Ditch certain Lots near said Square. —

Provided However that no Deed will be Given (& consequently no title acquired) to any person who shall not be a legal inhabitant, & present at the time of making the same. —

And Whereas the lands to be donated are granted in trust to the Directors of the Ohio Company for the purpose (in part) to enable them to fulfil that engagement of that Company to settlers at the expense of the United States— And Whereas there is among the original Grantees at Bellepré a number of persons who are not proprietors in the Ohio Company & whose names are inserted in the foregoing list for Lands to be donated as aforesaid & unless provision is made to the contrary may conceive they shall obtain a Donation of two hundred Acres, whilst the rest of the Settlers will have but one hundred Acres each,— Therefore Resolved, that no deed of lands in the hundred thousand Acres will be given to any original Grantee of Donation Lands at Bellepré of the above description untill the Lot granted them at Bellepre aforesaid is covered, by a right in the 5th Division of the Ohio Companys lands, & where any settler at Bellepré has purchased a lot under the foregoing Circumstances, and the original Grantee has left the Country he will be subjected to the same Conditions. And Whereas several persons borne on the foregoing list of Settlers are

now absent from the Ohio Company's purchase, some of whom are in public service & others absent on their own private avocations—And Whereas others from a Mistaken Idea—that by the foregoing assignment, the lands are now secured to them, they take the liberty of absenting themselves in an unreasonable manner, by which means the intention of Government in Granting the Lands will in a measure be frustrated. & the defence of the several settlements Weakened—Therefore Resolved, that in respect to those who are now absent the foregoing assignment is to be considered in no other light than a reserve in their favour for such time as the Directors Trustees shall Judge proper. Daniel Story Whereas, in the Contract made between the then Board of Treasury of the United States & the Directors of the Ohio Comp^y on the 27th day of Oct^r 1787 for a Tract of Land, therein described, it is, among other things, stiplated, that the said Directors and Ohio Comp^y of associates, or some of

And whereas it is of the highest importance to the Interest of the Proprietors that the Surveys of the Companys Lands be so executed as to separate & place the several Lots reserved by Congress for future disposition, as well as the Townships & Lots appropriated for particular purposes, where they ought to be agreeably to the aforesaid contract & land Ordinance. Further more, unanimously, resolved, that in subdividing the several Townships into mile square Lots, due regard shall be had to the foregoing principle, the dividing lines surveyed and the Corners of the several Lots, erected agreeably to the exterior boundaries of the Townships, which lines & boundaries shall be & remain forever dividing lines & boundaries to the Lots so divided to proprietors.

And with respect to the smaller Lots the Surveys shall extend so far as shall be found necessary to erect or make corners of all the Lots, but not further at the expence of the Company.—except the two Villages laid out at the Mouth of the Hockhocking and opposite to the Mouth of the great Kenhawa, both of which shall be accurately surveyed and staked out into Lots.—

The Superintendent shall be allowed one hundred and twenty five Cents per Day, while at home, and one hundred and fifty Cents per Day when abroad, and actually employed in the Company's Service, which is to be in full for office Room, subsistence, firewood &c. except Stationary, which shall be a charge against the Company; and, for each Assistant he may employ in drawing, recording or copying Plans, he shall be allowed a Sum not exceeding one Dollar per day, including subsistence &c.

Resolved, unanimously, that the Superintendent shall give his own Bonds, to the Treasurer of the Ohio Company, in the Sum of Ten thousand Dollars for the faithful performance of his Duty, in execution of the aforesaid trust. —

And, that the Surveys of our Lands may be com-

Resolved, unanimously, that in case of the Death or Disability of the present Superintendent, Col^o Robert Oliver, Col^o Benj^a Tallmadge & Benj^a Ives Gilman Esq. be vested with full powers to appoint another Superintendent with the same Powers, and under the same Regulations, as are provided in the foregoing System.

As a general Principle, it is recommended to the Superintendent to give the privilege of surveying, and of performing other Services incident to that business to all Persons alike, who may apply and appear to be competent to the business, hereby expressing our wish that none but faithful, trusty men may be engaged in the business.—

And it is hereby resolved that not more than two hundred & fifty Cents be allowed as the average for surveying each Mile in the Eight, Ninth, and Tenth Ranges, and not more than three Dollars be allowed as an average for surveying each mile, through all the other Ranges in the Purchase, including the Wages of Chain carriers, Marksmen, and all other expences.—
